

A modern interior scene featuring a white table and a white chair with chrome legs. The wall is covered in a pattern of black geometric shapes, including diamonds and triangles. A dark blue rectangular overlay is positioned at the top of the image, containing the text 'LAMINEX® Solid Surface'.

LAMINEX® Solid Surface

Laminex®
Inspire your space

Turn heads. And corners.

Create dynamic and inspirational interiors with Laminex® Solid Surface. A thermoformable acrylic, Laminex Solid Surface can be moulded to realise inventive designs with seamless joins. Its non-porous nature means Laminex Solid Surface has superior stain and bacteria resistance and the seamless joins make the surface easy to clean and very hygienic.

The unique flexibility of Laminex Solid Surface makes it ideal for both residential and commercial, horizontal and vertical applications including benchtops, countertops, reception desks and commercial bars.

Certification

Declare Red List Free

Declare is a transparency label driven by the Living Building Challenge which enables the design community and consumers to ensure they are using the best possible materials in their construction.

The Red List Free status is the highest possible ranking giving you peace of mind that what you are selecting is free of the worst in class chemicals and materials from a human and ecological health standpoint across the lifecycle of the product.

Protec+ antimicrobial efficacy

Due to its non-porous nature, Laminex Solid Surface offers you the benefit of antimicrobial protection. Protec+ provides long term and effective antimicrobial properties, reducing the overall level of harmful bacteria and fungi in the environment and the likelihood of cross contamination.

Greater design flexibility with Laminex® Solid Surface.
Colour: Chalk

Exceptional stain resistance keeps the surface looking like new with Laminex® Solid Surface. Colour: Chalk

NSF accreditation

Laminex® Solid Surface is accredited by the National Sanitation Foundation as suitable for unrestricted use in healthcare facilities, labs and food preparation areas.

Greenguard certified

Laminex Solid Surface meets stringent American Greenguard Gold standards ensuring safe and clean indoor air quality.

Laminex New Zealand® is a division of FLETCHER BUILDING PRODUCTS LTD. The colours of the photographs depicted in this brochure are as close to the Laminex® range as photographic lighting and modern printing processes allow. Colours shown are available at the time of publication, but may be withdrawn. In all cases, samples of the selected colours should be viewed before making final colour choices. Laminex Solid Surface is no different to any other material in that darker colours will always show scratches and superficial wear and tear more readily than lighter colours. Laminex® Solid Surface should be protected from strong, direct sunlight as continuous exposure may cause discolouration or fading to the surface over time. Please visit www.laminex.co.nz for specific care and cleaning information, or to obtain a copy of the terms and conditions of the Laminex® 10 year limited warranty. This warranty is in addition to any rights that may exist under the Consumer Guarantees Act (1993).
