

The background of the advertisement is a large, vertical image of a light-colored, veined marble surface. On the left side, there is a vertical strip showing the legs and seat of a rustic wooden chair. In the bottom right corner, there is a small bowl filled with lemons and green leaves, with a few lemons scattered on the marble surface nearby.

Quartz Pioneer

Since 1987, Caesarstone® has been creating quartz surfaces in our state-of-the-art manufacturing facilities utilising the most advanced technologies available with the highest standards of quality control and environmental responsibility.

With two diverse collections – Classico™ and Motivo™, Caesarstone® is an ideal starting point whether you’re building a new home or renovating your existing kitchen or bathroom.

Surfaces For Your Home

The Caesarstone® Classico™ collection combines style and functionality with colours and designs ideal for numerous applications in both residential and commercial interiors such as kitchen benchtops, splashbacks, bathroom wall linings, custom made furniture and more.

Choose Caesarstone®

Our surfaces consist of up to 93 per cent quartz which is stronger than natural stone and one of nature’s hardest minerals. Caesarstone® surfaces are resistant to stains, scratches, cracks, heat and common household chemicals. Our surfaces retain the cool, tactile qualities of natural stone, while offering almost unlimited design possibilities.

The Caesarstone® Difference

Non-porous, waterproof, mould and mildew resistant, Caesarstone® quartz surfaces are ideal for numerous applications. Large slabs provide a sleek and modern aesthetic, minimising joins and therefore maintenance.

Insist on the original quartz surface

Scratch and stain resistant	✓
Waterproof - never requires sealing	✓
Heat resistant	✓
Superior strength and flexibility	✓
Mould and mildew resistant	✓
Resistant to most household chemicals, acids and oils	✓
10 Year Limited Warranty	✓

Supernatural Designs

Inspired by some of the world's most beautiful natural marble, Caesarstone's supernatural designs represent the newest additions to the Classico™ collection, all with a unique blend of earthy tones and delicate infused veins.

With all the stain, scratch and water resistant qualities of quartz, the supernatural designs are ideal for benchtops, splashbacks, wall linings and furniture.

10 Year Limited Warranty

All Caesarstone® quartz surfaces come with a comprehensive 10 Year Limited Warranty. On receipt of your warranty registration information, you will be provided with a complimentary Caesarstone® cleaning kit.

Edge Profiles

Many edge profiles are possible, from single thickness 20 or 30mm slabs, through to laminated or mitred edge options. Our minimum suggested edge detail is 3mm radius on any profile.

Caesarstone® Slab ID

The underside of every Caesarstone® slab is uniquely stamped with identification information establishing authenticity.

High Style, Low Maintenance

Caesarstone's quartz surfaces never need sealing and require very little maintenance to keep them looking like new. The hard, non-porous surface makes cleaning simple. In most cases, soap and water or a mild detergent are all that are required to maintain its lustre.

For extra-stubborn spills we recommend using Caesarstone® Cream Cleanser, which is detailed in our Care and Maintenance guide.

Wall Linings

Non-porous, waterproof, mould and mildew resistant, Caesarstone® quartz surfaces are ideal for kitchen splashbacks and bathroom wall linings. Large slabs provide a sleek and modern aesthetic, minimising joins and maintenance.

The Patterned Textured Collection
Motivo™ utilises cutting-edge, patented technology to incorporate a sculpted pattern texture into the surface.

The Semi-Precious Stone Collection.
A collection of extraordinary surfaces hand-made from individually cut and bound semi-precious stones.

Environment & Sustainability

At Caesarstone®, minimising our impact on the environment is a top priority.

Compliance with Voluntary Safety and Environmental standards.

Caesarstone's quartz surfaces comply with ISO 9001, ISO 14001, OHSAS 18001, GREENGUARD and is a registered member of USGBC - The American Green Building Council.

Greenguard. All Caesarstone® surfaces comply with American GEI (GREENGUARD Environmental Institute) certification which primarily verifies that Caesarstone's products meet the most stringent indoor air emission standards.

Compliance with NSF 51. Caesarstone's products are compliant with the International Health and Safety Foundation sanitary standard, ensuring that our working surfaces are safe for use in all food environments.

Green Star environmental rating system. Launched by the Green Building Council of Australia, the Green Star rating tools help the property industry to evaluate the environmental design and performance of buildings and to drive the adoption of green building practices.

Caesarstone® Australia is a member of the Green Building Council of Australia.
