

 caesarstone®

Design freedom endless possibilities.
With so many stunning designs
to choose from, there's always a
Caesarstone® surface for your kitchen,
bathroom and more.

5143 White Attica

Choose Caesarstone®

Combining the beauty and strength of quartz - one of nature's strongest minerals - Caesarstone® quartz surfaces retain the cool, tactile qualities of natural stone yet are resistant to stains, scratches and are easy to clean.

Our surfaces consist of up to 93 percent quartz which is stronger than natural stone and one of nature's hardest minerals. Caesarstone® surfaces are non-porous resistant to stains, scratches, cracks, heat and common household chemicals.

Insist on the original quartz surface

- ✓ Scratch and stain resistant
- ✓ Waterproof - never requires sealing
- ✓ Heat resistant
- ✓ Superior strength and flexibility
- ✓ Mould and mildew resistant
- ✓ Resistant to most household chemicals, acids and oils
- ✓ 10 Year Limited Warranty
- ✓ Complies with Greenguard's stringent indoor air emission standards
- ✓ Compliance with NSF 51, the international Health and Safety Foundation sanitary standard
- ✓ Carries the declare label

Supernatural Designs

Inspired by some of the world's most beautiful natural marble, Caesarstone's Supernatural and Supernatural Ultra designs represent the newest additions to the collection, all with a unique blend of earthy tones and delicate infused veins.

With all the stain, scratch and water resistant qualities of quartz, the supernatural designs are ideal for benchtops, splashbacks, wall linings and furniture.

Concrete textured finish

Designed to replicate the genuine article, the three stunning concrete colours from Caesarstone®; Fresh, Raw and Sleek Concrete, feature all the inclusions and imperfections you'd expect to see in real concrete.

However unlike real concrete, the Caesarstone concrete collection is lighter, more durable, does not require sealing and has no messy on-site installation.

The concrete textured finish gives the surface an industrial aged patina look and feel. While the finish may require more daily maintenance than our Polished finish, the Concrete finish enhances the authentic look making these colours perfect for the popular industrial interiors movement.

Rugged and Cloudburst Concrete

Due to the authentic robust design of Rugged and Cloudburst Concrete and its inherent textural movement and patina, some variations in visual appearance may occur between slabs. For cutouts and edge finishing detail other than a mitred apron, the surface texture of these edges will not match the face of the Caesarstone surface. For more information please refer to the Concrete Collection brochure or www.caesarstone.co.nz

Create Your Dream Space

Whether you're designing a kitchen, bathroom or commercial space, our online photo gallery and Visualiser tool are an ideal way to explore different colour ideas, refine your style choices and share your design online.

Use our online Find a Display locator to discover Caesarstone® displays at kitchen showrooms in your area, then email or SMS yourself directions.

Edge Profiles

Caesarstone® recommends a minimum radius of 3-4mm on any edge detail for optimal strength and durability. There are many edge profiles to choose from, including single thickness 20mm or 30mm slabs, through to laminated double thickness edge options.

Standard Pencil Edge
with 3-4mm Radius

Mitred
Apron

10 Year Limited Warranty

Caesarstone® quartz surfaces come with a 10 Year Limited Warranty. After installation you will receive your complimentary Caesarstone® Cleaning Kit. Each Caesarstone® slab is stamped on the underside with unique identification information establishing authenticity.

High Style, Low Maintenance

Caesarstone's polished quartz surfaces never need sealing and require very little maintenance to keep them looking like new. The hard, non-porous surface makes cleaning simple. In most cases, soap and water or a mild detergent are all that are required to maintain its lustre. Alternatively, use the specially formulated Caesarstone Spray Cleaner or Surface Wipes for daily cleaning.

Please understand that the concrete finish will require more daily care and maintenance than our polished finish.

It is also important to understand that like all materials dark colours show marks and smears more readily than light colours.

For extra-stubborn spills we recommend using Caesarstone® Cream Cleanser, which is detailed in our Care and Maintenance guide.

Wall Linings

Non-porous, waterproof, mould and mildew resistant, Caesarstone® quartz surfaces are ideal for kitchen splashbacks and bathroom wall linings. Large slabs provide a sleek and modern aesthetic, minimising joins and maintenance.
