

The Collections

“Combining the beauty & strength of quartz – One of nature’s strongest minerals”.

Caesarstone® quartz surfaces retain the cool, tactile qualities of natural stone, yet are resistant to stains, scratches, cracks, heat and household chemicals - giving you an easy to clean surface for your kitchen, bathroom and other surfaces in the home. Caesarstone® consists of up to 93 percent quartz which is stronger than natural stone and one of nature’s hardest minerals.

Caesarstone® opens a world of design & inspiration for your own unique renovation. With cutting edge surfaces, endless design possibilities and support along the way, giving you total peace of mind that you’ve chosen not just the durability and quality of a Caesarstone® surface, but an inspired centrepiece for a lifetime of experiences.

Insist on the original quartz surface

- Scratch and stain resistant
- Water resistant - never requires sealing
- Mould and mildew resistant
- Resistant to mild household chemicals and oils
- 10 Year Limited Warranty
- Complies with Greenguard’s stringent indoor air emission standards
- Compliance with NSF 51, the international Health and Safety Foundation sanitary standard.

Industrial Inspired

Cutting-edge, urban aesthetic.

Caesarstone® leads the industrial trend by embracing the essence of unique materials such as oxidised steel, weathered cement & hand-poured concrete. Authentic patinas and variations in appearance capture real depth and movement, revealing different qualities that make these industrial designs unique.

Kitchen Island, Splashback & Benchtop | Excava™ 4046
Cabinetry | Melteca® Blackened Elm

Nature Inspired

Everlasting beauty & sophistication.

Caesarstone® marble-inspired designs make for an unforgettable impression. Innovative designs embrace the intricate characteristics of marble veining. A timeless surface with the durability Caesarstone® is known for.

Caesarstone® is made from natural quartz and therefore some variation in colour and aggregate may occur. The colours in this brochure are to the highest standards in printing, however, should only be used as an indication of actual product design. We always recommend making a final colour selection by viewing displays of larger panels in your nearest Caesarstone® showroom or kitchen retail showroom to appreciate the movement of the design over a large surface.

Edge Profiles

Caesarstone® recommends a minimum radius of 3-4mm on any edge detail for optimal strength and durability. There are many edge profiles to choose from, including single thickness 20mm or 30mm slabs, through to laminated double thickness edge options.

Standard Pencil Edge
with 3-4mm Radius

Mitred
Apron

High Style, Low Maintenance

Caesarstone's polished quartz surfaces never need sealing and require very little maintenance to keep them looking like new. The hard, non-porous surface makes cleaning simple. In most cases, soap and water or a mild detergent are all that are required to maintain its lustre. Alternatively, use the specially formulated Caesarstone Spray Cleaner for daily cleaning.

Please understand that the concrete finish will require more daily care and maintenance than our polished finish.

It is also important to understand that like all materials dark colours show marks and smears more readily than light colours.

For extra-stubborn spills we recommend using Caesarstone® Cream Cleanser, which is detailed in our Care and Maintenance guide.

Wall Linings

Non-porous, waterproof, mould and mildew resistant, Caesarstone® quartz surfaces are ideal for kitchen splashbacks and bathroom wall linings. Large slabs provide a sleek and modern aesthetic, minimising joins and maintenance.

Caesarstone® Visualiser

Explore different design ideas. Mix & Match cabinetry, wall & floors with the entire Caesarstone® range.

Bring your designs to life:

www.caesarstone.co.nz/visualiser

10 Year Limited Warranty

Caesarstone® quartz surfaces come with a 10 Year Limited Warranty. After installation you will receive your complimentary Caesarstone® Cleaning Kit. Each Caesarstone® slab is stamped on the underside with unique identification information establishing authenticity.

Have peace of mind :

Caesarstone® Finishes

Polished Finish

The Caesarstone polished finish offer a diverse variety of attractive colours with an elegant finish and silky feel that is smooth to the touch. Their light-reflecting glosses offer the perfect solution for today's contemporary design requirements and their minimal care requirements make them wonderfully easy to live with.

Concrete Finish

Concrete matte finish brings an authentic industrial patina, look and feel to the surface and like all Caesarstone surfaces, never requires sealing. Compared to the polished finish on other Caesarstone designs, the smooth Concrete matte finish doesn't disguise marks as easily meaning more regular cleaning may be required. Fresh and Raw Concrete may include random pigments throughout the slab.

Rough Finish

Rough. Refined. Delivering the authentic, robust look of a 'hand poured concrete' benchtop.
